DOMINIK(1) DOMINIK(1)

NAME **dominik** — frontend engineer who architects apps from the first commit and keeps them predictable under real-time data.

SYNOPSIS dominik --frontend --react --typescript [--lead] [--full-stack=learning] [--remote | --poznan]

DESCRIPTION I architect frontends from the first commit, design state that stays predictable when real-time data hits it, and care about the details users feel but rarely notice. Web, mobile, admin panels — React all the way down. Now growing into backend and infrastructure, on the way to full-stack.

EXPERIENCE

HEAD → main feat: expanding into backend & infrastructure
merge: 'un7/pirateswap' 03.2026

pirateswap.com
Frontend developer → lead, UN7 · 05.2023 — 03.2026

lead: own the frontend: reviews, planning, PO sync
realtime: live market data & trading over websockets
perf: smooth for thousands of daily users
state: React Query + XState architecture
init: architect the frontend from scratch

branch: 'un7/pirateswap' 05.2023
merge: 'petmate' 04.2023

Petmate
Frontend developer · 08.2021 — 04.2023

mobile: React Native shop for iOS & Android
admin: admin panel built from scratch
ds: one design system for web, admin & mobile
api: GraphQL + Apollo with optimistic updates

branch: 'petmate' 08.2021

Renderberg

Junior frontend developer · 06.2019 — 07.2021

- [review](#): 3D mockup viewer with pinned comments
- [docs](#): interactive PDF viewer
- [init](#): first commercial commit

branch: 'renderberg'

06.2019

root: IT Specialist — ZSE, Gorzów Wielkopolski

2014 — 2018

SKILLS	frontend	React, TypeScript, Next.js, React Native, Vue, Electron
	state	React Query, XState, Apollo / GraphQL, Redux, Zustand
	ui	CSS / SCSS Modules, Tailwind, Styled Components, Motion, Storybook, a11y / WCAG
	quality	Vitest, Jest, Playwright, Cypress, Testing Library
	tooling	Vite+, Turborepo, Webpack, GitHub Actions, Vercel, Git
	backend	Node.js, NestJS, Express, Docker, Bash
EDUCATION	IT Specialist — ZSE, Gorzów Wielkopolski · 2014 — 2018
